Discussions:

1:00pm – Continuation of NOI for East Chop Drive/Crystal Lake M1 P21, 56, 58, 60, 61 SE053-0867 Mark Manganello on behalf of East Chop Association, Inc.

Members meet Mark Manganello on the northernmost portion of Crystal Lake off of East Chop Drive. They then walked southwestwardly stopping at staked view channels to discuss a variety of vegetation management practices. Joan discussed the benefits of disallowing the cutting of junipers. How best to open up public access to crystal lake was also discussed. Commissioners identified areas where view channels are most susceptible to breach by a Nor'easter. Specific plants had been identified as well as view channels on the otherwise of the lake, near Pall Mall.
