Hi Ewell,

Thank you for helping us move this process forward.

In addition to the details of the State Plumbing Board Variance which we had previously provided, I am also including:

- 1) Mass Historical Commission - Project Notification Form determining "no adverse impact"
- 2) COA #3081 - Approval of the Architectural Review Committee Certificate of Appropriateness
- 3) 21-05 Automatic Sprinkler Review Board - Approval of Fire Protection Plan
- 4) Letter from National Park Service evaluating the compatibility of the accessory structure with the National Historic Landmark during the Schematic Design phase

Let me know if there are any additional details that would be helpful.

Ashley

Ewell,

Dawn Mckenna from the MVCMA has tried reaching out to Kim, but in her absence I figured I would ask you. She noticed that the Tabernacle is on your agenda for this Thursday, and she is just trying to confirm that is correct because she never got a confirmation from Kim. Dawn and her daughter Ashley who are both involved with the project are copied on this email.

Thank you,

Matt Rossi

Alternate Building Inspector

Town of Oak Bluffs
