Good morning

Thank you so much

Did not drop off a hard copy

Here's my letter that I emailed this past Monday

I appreciate your help

Best, Sandra Miller and John Firestone

Subject: In Support of Tabernacle Project

Dear Oak Bluffs Planning Board:

We write in full support of the Tabernacle Project.

Our cottage on Trinity Park which faces the Tabernacle has been in our family for over fifty years and we are proud members of the MVCMA community.

The historic and architectural integrity of this precious place is of the utmost importance to us as is the community significance of the Campground, an important part of the fabric of Oak Bluffs and the Island.

That being said, we live on the rear side of the Tabernacle and are subjected to the unfortunate sight of a row of non-historic port-a-potties.

The proposed accessory building will serve many crucial needs - one of the most important is that it will replace a previous structure that existed years ago and will honor the historic and architectural integrity of the Tabernacle structure that we all hold so dear.

It will also eliminate this unfortunate eyesore.

In closing, we are proud that the project will serve the Island-wide community, a key principle of this truly special place we call home.

Thank you for your time and consideration.

All best, Sandra Miller and John Firestone
